

Extend Your Resources and Capabilities in Clinical Testing

Not everyone needs a high-complexity clinical and molecular laboratory all of the time. When you do—call us!

PacificDx supports leading-edge molecular technologies for diagnostic biomarker interrogation, drug selection targeting and therapeutic monitoring, as well as pre-clinical and clinical testing.

Fully-credentialed:

CLIA-Certified | CAP-Accredited | Multi-State-Licensed

A network diagram graphic is located in the bottom right corner of the teal sidebar. It consists of several circular nodes of varying sizes connected by thin lines, forming a star-like or web-like structure.

PacificDx

Our fully accredited and licensed clinical molecular laboratory is a wholly owned subsidiary of ResearchDx—a Contract Diagnostic Organization (CDO) offering a single-partner solution for the development and validation of companion diagnostic IVDs. Together, the company duo offers a complete menu of diagnostic services and expertise, globally.

Our Lab is Your Lab

PacificDx provides an extensive array of clinical, esoteric and consulting laboratory services to biopharmaceutical and clinical diagnostics laboratories. We serve as the testing resource for those companies who are either under-resourced or want to avoid the financial and regulatory burden of building a high-complexity clinical laboratory.

Credentials

As a premier CLIA-certified, CAP-accredited laboratory, our reputation is solidly built on our technical capabilities, quality and rapid turnaround of test results. ResearchDx maintains licensure, accreditation, certification and/or compliance where applicable to pertinent regulatory bodies and to local, state and federal laws.

Our state-of-the-art facilities and expertise will meet your clinical and pre-clinical needs for high-quality clinical and biopharmaceutical testing services.

Clinical Testing Services

- Molecular methodologies
- Perform your LDTs
- Discrete testing resource
- Multi-platform capability
- Clinical trial (FDA)
- Analytical evaluations
- Mock preparatory inspections
- Pre-inspection auditing/readiness
- Post-inspection audit responses
- Complete new start-up consulting resource
- Provision of standard laboratory documentation

GLP Diagnostic Services

- Non-clinical testing
- Pre-clinical testing
- GLP compliance consulting
